In the knowledge economy of the 21st Century, CEOs and managers recognize that keeping good employees is more than a fat paycheck and stock options. Along with these should come good working conditions, a community spirit, and purposeful work.

Ahead of the curve and anticipating future needs, Work & Spirituality created a resource directory, a series of publications, and seminars to help companies recognize and nurture the spiritual side of their employees. Leading consultants to industry author its books and resources. They are direct marketed throughout the U.S. and Canada.
