SUPERIOR MEDICAL LIMITED-U.S. Health Education & Promotion Catalog

Superior Medical has distributed medical products for decades throughout Canada. In 1985 the company obtained exclusive distribution rights to U.S.-produced health and patient education booklets and resources. Over the years they have acquired distribution rights to virtually every major source for these types of publications.

Always on the forefront of medical technology and communications, Superior Medical gradually introduced their own publications and resources. As a result, they found a ready U.S. market for many of their own products, especially after they acquired the publishing assets of some U.S. companies and therefore the accompanying proprietary customer databases. Their U.S. product lines include publications, posters, manuals, and health promotion novelties. These are marketed via catalogs, single-offer direct mail programs, telemarketing, and their Web site. Their databases are comprised of health care institutions and professionals, health educators, safety managers, and corporate health & wellness or HR departments.
